CHANGE MANAGEMENT TRAINING COURSE OUTLINE

FOREWORD

Change is a constant in many of our lives. All around us, technologies, processes, people, ideas, and methods often change, affecting the way we perform daily tasks and live our lives.

Change Management is a general discipline to ensure that changes are executed carefully, efficiently and with long-lasting benefits. By identifying and planning for its wider effect on the organization and its people, you can implement changes much more easily and minimize any negative impact. Every change initiative that you encounter or manage will have its individual distinct set of activities and goals which all must be identified and coordinated.

This Change Management workshop will give any leader tools to implement changes more smoothly and to have those changes better accepted. This workshop will also give all participants an understanding of how change is implemented and some tools for managing their reactions to change.

Change Management Training is important in today's professional world as organizational change is more the norm rather than the exception. More than ever, work roles and organizations are in a state of flux with changes in structure, re-deployment, return to work, redundancy and personal crisis. Hence it is important to understand the change management process and learn some important change management tools.

Change takes place on three different levels:

- the Individual
- the Team
- the Organization

Organizational change management has to happen at all three levels as they are interrelated.

This **Change Management** Training Program is geared toward teaching the change management process as well as some change management tools and principles that can support managers, consultants and other change facilitators to fulfill their mission: to initiate and sustain change processes.

OUTCOMES

In this course participants will:

- ▶ Learn about effective change management strategies
- ▶ Understand and recognise individual motivators for change and how to use them
- ▶ Recognise that everybody's personal change journey will be different
