CONFLICT RESOLUTION TRAINING COURSE OUTLINE

FOREWORD

Conflict is a normal and inevitable element in any working relationship. Conflict usually occurs due to differences in opinions and can arise whenever individuals have conflicting ideas, principles, values or desires. Learning how to manage conflict is necessary for any organization. When conflict is mishandled, it can have a negative impact on relationships, moral, teamwork and can lead to a decrease in productivity. But when managed in a professional, constructive way, conflict brings an opportunity to improve the link between individuals.

Conflict is the result of people having differing needs, opinions, expectations and importantly different perspectives. The reality of conflict is that in any human relationship it is inevitable, but if handled well, conflict provides a powerful avenue for significant growth.

This **Conflict Resolution Training Course** provides techniques for individuals in an organization to resolve workplace conflict and build a common understanding and framework for working through challenging conflict situations. We have, after much research, decided to focus on the Win-Win Approach using the three critical skills of conflict resolution – Negotiation, Assertiveness and Persuasion. These skills will enable participants to develop conflict resolution strategies for quickly and effectively recognizing, resolving and preventing conflict.
