EMPLOYEE ONBOARDING COURSE OUTLINE

FOREWORD

Employee Onboarding is a program to train the company's Human Resource Management staffs how to help new employees adjust to their new jobs and environment. A well-guided new employee can become productive and efficient in the shortest possible time. The program can help companies reduce employee turnover and maintain smooth and efficient operations consistently.

Research and conventional wisdom both suggest that employees get about 90 days to prove themselves in a new job. Every organisation has its own version of the complex process new employees go through to learn skills, knowledge, attitudes and behaviors required to function effectively. The bottom line is, the faster the new employees feel welcome and prepared for their jobs, the faster they will be able to successfully contribute to the firm's strategic and operational plans.
