COURSE LENGTH: 0.5 DAYS

When teams work in synergy they realise the potential that all teams have - which is that as a team, they can be more productive than the sum of the individual people.

To reach this high performing synergistic state, participants are involved in a one-day, workshop-style day that demonstrates how much more can be created by genuinely working together, having an appreciation for the different complementary strengths that come through diversity, and proactively working to the strengths of each team member.

The activities involve communication adaptability, personality type awareness, strengths discovery and management strategies, as well as experiencing greater outcomes through working together in new ways.
