## STRESS MANAGEMENT COURSE OUTLINE

---

### FOREWORD

Stress affects individuals from all walks of life, but has even greater effects within high-density populations like Singapore. Although some types of stress are actually motivating, too much stress can critically affect your physical, emotional and mental well-being.

Positive and negative stress is a constant influence on all of our lives. The trick is to maximize the positive stress and to minimize the negative stress. This workshop will give participants a three-option method for addressing any stressful situation, as well as a toolbox of personal skills, including using routines, relaxation techniques, and a stress log system.
