 0.5 DAY COURSE

**This activity-based half-day course explores two main ideas: how do people make choices about how they spend their time, and how can they ‘get in flow’ to maximize their productivity in the time that they have.**

**The myth of multi-tasking will be exploded and replaced with mindfulness – enabling focus in the moment. Participants will explore how mindfulness can be applied to problem-solving, conflict management and empathy – leading to greater understanding, faster results and greater harmony.**

**The research of psychologist Mihaly Csikszentmihalyi, the father of ‘flow’, will be used to give participants the tools to get in a flow state where their productivity is optimized.**

**Mindfulness and flow are fantastic tools and ways of being, but when should someone use them? The course looks at the other major impact on productivity, time - how to decide what to spend it on.**

**Participants will leave an action packed half-day with both tools and strategies to optimize their productivity.**
