 [REQUEST QUOTE](#)

 1.0 DAY COURSE

Managing complex tasks in Singapore, like projects, requires a range of time management skills. Most important is the estimation process for costs and timings. Most project estimations are difficult to forecast, hence the large number of projects that are delivered over-time and over-budget.

The new PD Training Signature series course, Time Management for Managing Projects and Complex Tasks, incorporates best practices from a range of professional frameworks like Agile SCRUM, to create a real-world time management training course for the real-world project manager.

We introduce course participants to a range of modern tools including mobile apps and online counters and timers, which allow you to better leverage your time while at work. Mobile devices can now be important tools when improved productivity is the primary goal.

Learn essential skills like how your personality type can actually impact your personal time management, multiple estimation techniques, delegation of tasks, meeting management, managing a crises situation and much more!

Click the “Group Training Quote” button for a free quote for your internal sales team training or click the “Register Now” button to view our national public schedule.

## What You'll Gain:

This Time Management for Managing Projects and Complex Tasks course in Singapore will help you learn how to manage and maximize your time. It will also guide participants in how to use different applications and modern tools to track your time. Good time management enables you to work smarter - not harder - so you can save time, effort, energy and get more done in less time.

This course focuses on bringing proven time management techniques into the modern world using a range of tools like mobile applications, online tools and proven methods.
